

# Cookie Policy

So what's a cookie? Well, it's a simple text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie. Each cookie is unique to your web browser. It will contain some anonymous information such as a unique identifier, the website name and some digits and numbers. If you want to get even more 'techy' than this simple explanation, you might want to read some more at <http://www.allaboutcookies.org>.

Our website uses cookies to improve your online experience with Carrot, and they enable us to understand which areas of our website are of most interest to you. We also use cookies when you register for more information or take out a policy with us. In this situation, a cookie will store useful information that enables our website to remember you when you return to visit us.

None of our cookies store sensitive information such as your name, address or financial details. You can delete any cookies stored on your computer but this may prevent you from getting the most from your next visit to carrotinsurance.com.
